CALM AFTER STORM

Financial Market Has Escaped Danger of a Panic.

RELIEF MEASURES TAKEN

A Pool, Headed by Morgan, Made Up $25,000,000, Which It Is Believed Has Given Permanent Relief to the Money Market.

New York, Oct. 26.—A much calmer tone was apparent in business circles Friday morning. The success of the relief measures undertaken by J. Pierpont Morgan, John D. Rockefeller and other prominent financiers, together with the serenity with which the officials of the trust company of America met the run of depositors on that institution gave great encouragement to bankers and business men generally that no further trouble was to be feared. The $25,000,000 made up by a pool headed by Mr. Morgan, which was sent into the stock market Thursday afternoon is believed to have given permanent relief to the brokers who were needing funds with which to carry the stocks bought and held on margins for their customers.

Thursday night passed without any of the series of conferences of bankers with each other and with Secretary Cortelyou, which were held until late hours on Tuesday and Wednesday nights except for an informal meeting at Mr. Morgan's house. Secretary Cortelyou attended the dinner of the graduate club of which he is vice president and made an address in which after discussing at some length the objects of the club and its affairs, he made a brief reference to financial matters. The secretary said:

Coltelyou Talks of Situation.

"We are having a trying experience but with all its embarrassments I find my faith in the general stability of business strengthened by the examples I have seen of both courage and splendid devotion to public welfare shown by many men of great influence in the commercial and industrial life of this city. Weak places have been fortified; but what is better, those of bad influence have been scourged from their positions and the determination to carry this work forward will have a far-reaching influence in restoring public confidence."

There were lines of depositors waiting Friday morning in front of the Trust Company of America and at the banking office of The Lincoln Trust company up town.

Woman Headed Line.

Some of those in line at the Trust Company of America had been there all night. At the head of the line was a woman who declined to leave her place even when the men next in line promised to restore it to her in the morning. She suffered considerably from the cold night air and several of the men, touched by her plight, went to a nearby restaurant at 3 o'clock in the morning and got some bread and coffee for her.

First advices from London Friday were very encouraging. American stocks there opened at prices from 1 to 4 points higher.

GRABBED $9,000.

Philadelphia, Pa., Oct. 26—Two men walked into the sub-treasury here on Friday morning, grabbed $9,000 that was being paid out to a national bank teller and started to run from the building.

Clerks and others gave chase and the two men were so hotly pursued that they threw their money under a street car. Both men were captured and are now in the city hall.

One of them carried a revolver. The money was in bank notes and was all recovered.

Shot Himself with a Rifle.

Reynolds, Ga., Oct. 26—T. H. Roseland, a prosperous farmer, about 57 years of age, residing 4 miles north of Reynolds, committed suicide Thursday by shooting himself with a Marlin rifle. He had been in bad health for some time, which is supposed to have been the cause of his rash act.

EXTRA SESSION NOW CERTAIN.

Alabama Legislature to Deal With the Railroad Question.

Montgomery, Ala., Oct. 26.—With the practical certainty of an extra session of the legislature to deal with the question of railroad control, preparation is being made at the capitol for the reception of the members.

Clerk of the House Cyrus Brown is assembling his documents so that there may be no delay, and Secretary of the Senate J. A. Kyle will be early on the ground to have ready the more sedate side of the house. The governor and his many advisors are getting a mental line on what will be suggested in the way of legislation and be prepared to give advice and counsel to those who will make the laws.

The attitude of the recalcitrant railroads, headed, in the main, by the president of the Louisville and Nashville, is well known now, and it seems not so much a desire to resist the rates and the laws as the principle that the state has a right to legislate on alleged reduction in incomes and provide what shall be charged for certain service for a given length of time.

Milton H. Smith, head of the Louisville and Nashville, makes this very plain. He insists that if the state can make laws that will in a sense be confiscatory of the property of the railroads, it is a bad day for all corporate interests. He prevers to let the matter go through the courts and have it settled for all time.

WILL CLOSE SATURDAY.

Final Day of Georgia State Fair Will Be Eventful.

Atlanta, Oct. 26.—The Georgia State fair, which has established a new record for a successful season, will close its gates Saturday night at midnight.

The officials, however, have arranged an interesting program for the farewell day. The chief event of interest wil center about the mammoth coliseum Saturday afternoon from 1 until 3 o'clock, which will be the baby show.

The show outgrew all of its expectations, and the keenest interest has been caused by the many entries. Liberal prizes have been offered and the show promises to be very successful.

An especially fast racing program has been prepared for the final events and the midway shows will give special performances on the last night.

YARD CONDUCTOR KILLED.

Foot Slipped from Break Beam and He Was Trown Under Train.

Atlanta, Oct. 26.—Chas. A. Walker, a yard conductor of the Southern railway, was run down and almost instantly killed by a freight train in the Inman yards of the Southern railway Thursday afternoon at 1 o'clock.

Walker was in the act of catching a moving train of cars when his foot slipped from the brake beam, throwing him under the wheels. He was fearfully mangled and died before medical assistance could reach the scene of the accident.

Walker was 36 years of age. He had been in the employ of the Southern for some years, having come to Atlanta from Virginia.

Strikers Return to Work.

New Orleans, Oct. 26.—The levee strike, involving 10,000 men, mostly cotton handlers, ended Thursday night. The men agreed to return to work pending final adjustment of the controversy by arbitration which was proposed by the local steamship agents. The strike was sympathetic in behalf of about 1,800 cotton screwmen who refused to stow in vessel holds the number of bales demanded by the steamship agents. No disorder of any kind occurred during the strike, which lasted about a month.

Magistrate Victim of Feud.

Montgomery, Ala., Oct. 26.—Samuel Johnson, a magistrate of Elmore county, was shot and killed Thursday as he alighted from a train at Rollins Switch, about 15 miles north of here, by a man named Oates, who escaped. It is said a feud existed between the men. Bloodhounds were sent from the state penitentiary, which is close by, to pursue Oates.

MANY ARE HOMELESS

Result of Earthshocks In Districts of CulaBria.

POPE SENDS RELIEF MONEY

In Addition Itatlian Government Sends Large Sum for the Sufferers—People Fear a Repetition of the Earthquake Shocks.

Rome, Oct. 26.—Little additional news was received here Friday morning from the districts of Calabria which were devastated by earthquocks during the evening of Oct. 23. The bad weather continues in the south and it is feared that many persons are likely to lose their lives as the result of exposure, fear of a repetition of the earthquakes preventing them from returning to the villages. Many of the homeless people have erected tents or are living under other temporary coverings.

The pope has sent supplies of money to the clergy of Calabria for the relief of their suffering parishioners and has ordered that the churches be kept open day and night for the use of the homeless.

In addition to the funds sent by the pontiff the government has forwarded $20,000 to the Calabrian authorities for use in the relief work.

Details of the earthquake show that the shocks were especially severe in the southern end of Calabria. The first shock fortunately brought the entire population of the village into the open, many succeeding in making their escape to the hills or open plains, which accounts for the smallness of the list of fatalities.

Buried in Ruins.

To add to the desolation caused by the earthquake it was raining in torrents in the evening, which greatly increased the suffering among the homeless people.

Half the houses at Ferruzzano and Brancaleone collapsed and many persons were buried in the ruins ,and at Sinopoli and St. Ilaria more lives are said to have been lost. Panic prevails everywhere.

Bocella, Jonica, Reggio, Cosanza, Baraodio, Cittanova, Palmi, Marina and other towns also suffered from the shocks, but none severely.

Half the houses of the village of Gerace are in ruins and similar conditions prevail in a number of other places.

The scientists at the University of Naples, who study seismitic disturbances, say that the earthquake of 1905 was preceded by the sudden cessation of the eruptions of Mount Stromboli and Etna. Mount Vesuvius boli and Etna. Mount Vesuvius, they add, was active unti la week ago, but since then the volcano has not emitted any smoke at all.

ROCKEFELLER REUNION.

Third Annual Dinner Is Given at Bretton Hall.

New York, Oct. 26—The Rockefeller family association had its third annual dinner at Bretton hall Thursday night with about a hundred members from all parts of the country present.

The nearest kin of the great chief of the clan at the banquet was Mrs. Carrie Brandley of Phelips, N. Y. A cousin of John D. Rockefeller. Aaron R. Lewis, a distant relative who spent som time delving into the family genealogy, has found the Rockefellers originated in France, the name being originally Roquefeuille. Many of them even in the fifteenth century were financial men, being gold and silver smiths and issuing coins of their own with their name stamped upon them. There is a Baron Roquefeuille stik living at Rennes who admits the relationship.

Mr. Lewis said the center of the south Germany Rockefellers was in the village of Saan, where he found Simeon and Christial Rockefeller running the old water mill of the town, as their fathers had done for 225 years.

"Undoubtedly we are kinsmen of the American millionaire," said Simeon to Mr. Lewis.

PETITION FOR RECEIVER.

Application Is Made for the Southern Steel Company.

Birmingham, Ala., Oct. 26.—Application for a receiver for the Southern Steel company was filed in the federal court here, the application being signed by the Sayer Mining and Manufacturing company, the Birmingham Coal and Iron company and the Star Cahaba Coal company. It is understood that Kriss Valer and Edgar Adler, of this city, will be named as receivers by Judge Huntley, who is now in Huntsville.

The Southern Steel company is capitalized at $25,000,000. Its principal plants consist of four furnaces, one each at Gadsden and Truesdale, Ala.; Chattanooga, Tenn., and Rising Fawn, Ga., a six-furnace steel mill at Gadsden, Ala., a wire and nail mill at Ensley and the company's raw material embraces extensive coal and ore mines in Alabama, Tennessee and Georgia.

Among the principal stockholders in the company are Oakleigh Thorne, J. A. Van Cortlant and Moses Taylor, of New York; J. P. Lacey of New Orleans; C. E. Black and E. T. Schuler, of Birmingham.

SHERIFF ARRESTED GIRL.

Charged with Being Implicated In a Highway Robbery.

Raleigh, N. C., Oct. 26.—The sheriff of Caldwell county has taken to jail at Lenoir a 16-year-old girl, Maggie Lewis, who is charged with being implicated in a highway robbery and a murder in that county last spring. For this crime two men were tried last summer at Lenoir, were convicted, and were sentenced each to the penitentiary for twenty years.

It is now claimed that the Lewis girl has made a confession to some friends and perhaps to a number of her family that she was concerned in the double crime, and that she got part of the money.

The girl was found in Asheville. It turns out that she had been there about a month, and with two companions, giving th enames of Mary Rogers and Vance Moody, had been arrested and sent to the house of correction, which is in the suburbs of Asheville.

ONE KILLED, EIGHT HURT.

Explosion at Purifying Plant of the Chattanooga Gas Company.

Chattanooga, Tenn., Oct. 26.—One man was fatally hurt and eight others were more or less seriously injured by an explosion of gas which destroyed the purifying plant of the Chattanooga Gas company Thursday afternoon. Following the explosion the plant was almost instantly enveloped in flames, and for some time the large retort was in danger. Instant and heroic work on the part of the fire department confined the flames to the purifying department.

The loss to the gas company will reach $30,000.

The cause of the explosion is thought to have been the lighting of a match near one of the large mains while the cap was off. It is not known certainly who is responsible for the accident. An investigation will be made.

Finances to Protect Banks.

Goldfield, Nev., Oct. 26.—George Winfield has authorized the statement that he and Senator Nixon were using their entire finances for the protection of the banks in which they are interested. The banks are at Reno, Tonopah, Goldfield and Rhyolite. The Goldfield consolidated was forced to lay off a large number of miners on Thursday by reason of the refusal of the sampling works to accept ore.

Two Killed by Train

Huntsville, Ala., Oct. 26.—Hal Harris, 18 year-old son of Colonel Jas. Harris, of Jackson county, and Cap Rooney, a [illegible] were killed by a passenger train on the Southern near Scottsboro Thursday morning. Their bodies were horribly mangled.

Crew Abandon Ship.

Baltimore, Md., Oct. 26.—A cablegram from London to the Maritime Exchange says that the British vessel, Pampico, from Baltimore for Rotterdam, was abandoned in latitude 47 north, longitude 22 west. The crew were saved.

NO. OF BALES GINNED

Reports of Special Agents of the Census Bureau.

REPORT ON CROP OF 1907

Up to the 18th Instant [illegible] Bales Had Been Ginned as Compared with 4,931,621 to the Same Time Last Year.

Washington, Oct. 26.—The census bureau Friday made public a statement of the reports of its special agents on the quantity of cotton of the crop which had been ginned to the 18th instant, showing [illegible] as compared with [illegible] ginned to the same time last year.

In these figures six [illegible] are unrepresented and [illegible] ties last year gave [illegible] bales.

The unrepresented counties are tributed as follows:

Mississippi, 17; Alabama, [illegible]; Arkansas, 5; Florida, 6; Georgia, [illegible]; Louisiana, 9; Oklahoma, 5; South Carolina, 1; Tennessee, 3; Texas, [illegible].

The total reported is from [illegible] 22,79* ginneries as compared with [illegible] 125 for last year.

The figures by states will not be given out until reports are received from all of the counties in each of the states.

FIRE IN MASONIC TEMPLE

General Stampede Followed Among Three Hundred People.

Chicago, Oct. 26.—Three hundred people were enjoying themselves in the assembly hall on the Seventeenth floor of the Masonic Temple Thursday midnight when fire started on the fourth floor, spread to the seventh and filled the upper part of the building with smoke.

A general stampede followed when smoke reached the hall where friends of the Catholic Knights and Ladies of America were attending a reception.

The fire was caused by hydraulic rods which became "hot." The rods, which are at the rear of the elevator shaft, ignited the wood partition. The blaze spread rapidly before it was discovered. In the assembly hall there was excitement and some panic. Quick action and cool judgment on the part of employes of the building in operating the three elevators, however, made the rescue of those [illegible] easy, but some of them fainted or became excited and screamed down the long flights of stairs.

The loss to the temple [illegible] about $5,000.

DESTRUCTIVE FIRE

Madisonville, Ky., Visited by $75,000 Conflagration.

Madisonville, Ky., Oct. [illegible] city was visited by a destructive fire Friday, a wagon factory, two livery stables, a tobacco factory, a restaurant, a shoe shop and six residences being burned to the ground.

The loss is estimated at $75,000, partly covered by insurance. The origin of the fire is not known.

NOT GOOD DIPLOMACY

Count O'Kuma Criticizes Sending the Battleship Fleet to Pacific.

New York, Oct. 26. [illegible] Seaman, ex-surgeon in the United States army, who was with the Japanese forces both naval and military during the Russo-Japanese war, has received a letter from Count Okuma, the Japanese progressive leader, in which the count said that the visit of the Atlantic fleet to the Pacific was not good diplomacy.

"Foreign newspapers," the count wrote, "are too pessimistic. The Japanese are convinced that there will be no war. Every case like the San Francisco incident is sure to have a bad effect. I think that the power in the United States is due to the states' sovereignty principle. The power of the states is too great. They are too independent. The visit of the Atlantic fleet to the Pacific is not good diplomacy."

UNIVERSITY BOYS WERE THE WINNERS

Scored a Victory Over Columbia Team by Score of 6 to 0.

UNIVERSITY BOYS ARE JUBILANT

Parade the Streets Saturday Night With Horns and Bells, Giving the College Yell—Young Ladies Joined in the Merriment.

While no information of the particulars of the game were received here Saturday night, a wire came to the effect that, in the football game between the University team and the Columbia team of Savannah, the University won by a score of 6 to 0.

This was the signal for a demonstration by the University boys, who paraded the streets with horns, bugles, cow-bells and every other conceivable thing they could get their hands on to make a noise—and they made it to a Queen's taste,

Many young ladies were also so full of enthusiasm that they joined in the merriment, dangling the cow-bells also. In all, it was a jolly and enthusiastic crowd, and everybody was happy.

Columbia team is said to be one of the strongest in Georgia, and the victory was quite an honor to the Florida boys, who weigh upon an average several pounds lighter than their opponents.

Mr. Blake Improving.

Friends of G. W. Blake, who had the misfortune to lose the first joint of the thumb of the right hand while engaged with some machinery at the Gordon ginnery Wednesday, will be pleased at the information that the patient is getting along nicely. Naturally the loss of a portion of the thumb has caused him considerable pain and annoyance, but he will be all right in a short time.

Mr. Blake, who is possessed of a most cheerful disposition, says there is a moral to this "slight" catastrophe, and that is "Don't monkey around too much."

Afflicted With Sore Eyes for 33 Years.

I have been afflicted with sore eyes for thirty-three years. Thirteen years ago I became totally blind and was blind for six years. My eyes were badly inflamed. One of my neighbors insisted upon my trying Chamberlain's Salve and gave me half a box of it. To my surprise it healed my eyes and my sight came back to me.—P. C. Earls, Cynthiana, Ky. Chamberlain's Salve is for sale by all druggists.

WORK RESUMED.

Contractor Beeman Again Takes Up Work on the Lateral Sewers.

Provision having been made for the money on the lateral sewerage contract by the passing of an ordinance providing for the issuance of special assessment city certificates, the work of laying the lateral sewerage is again going on nicely, work being resumed Thursday.

The history of this case has already been published in The Sun, hence is familiar. In brief, Mr. Beeman, in competition with other bidders, was awarded the contract by the Board of Public Works for this job, with the understanding that the contract was to be completed within six months. Contractor Beeman was progressing nicely with his work, when it was discovered that there were no funds with which to pay him, with the result that he ceased work at once.

The laying of lateral sewerage has been at a standstill for the past few days on this account, Contractor Beeman refusing to proceed further until he could see some chance for his money, but the recent act of the Council in passing the ordinance providing for these special assessments will now assure the uninterrupted completion of the work.

LETTER TO J. B. PADGETT,

Gainesville, Florida.

Dear Sir: Say milk is worth 8c a quart.

If 1-3 water and sold at 8c, the milk in it fetches 12c a quart.

If ½ water, 16c.

If 2-3 water, 24c.

If ¾ water, 32c.

That's rather too stiff for milk; but watered paint is sold in all those proportions.

Pure paint (Devoe) is sold for $1.75 a gallon.

"Paint" at that price and 1-3 whitewash fetches $2.62 a gallon for the paint part of it.

"Paint" ½ whitewash fetches $3.50 a gallon for the paint in it.

"Paint" ¾ whitewash fetches $7.00 a gallon for the actual paint it contains.

And people are paying all these prices for paint, when they buy adulterated paints. There are 200 such; only 8 pure paints; only one Devoe.

Yours truly,

42 F. W. DEVOE & CO.

P. S.: The S. J. Thomas Co. sell our paint.

WEATHER FORECASTS TO COME DAILY

Will be Announced Over Telephone to Growers of Section.

CONGRESSMAN CLARK'S ENERGY

Realizing the Importance of These Reports Promptly to Growers, Congressman From the Second Got Busy With Desirable Result.

Several days ago Hon. Frank Clark, Congressman from the Second District, took up the matter of having reports of the weather forecast for this section of the country delivered promptly, and wrote Director A. J. Mitchell, who has charge of the weather bureau at Jacksonville, in the matter, stating to Director Mitchell that it was a matter of the gravest importance that the people of this section, especially the growers of vegetables, receive the forecast promptly.

In reply to Congressman Clark, Director Mitchell wrote the following:

"Referring to the matter of distributing the forecast from Gainesville over the 'phone line, I beg to ask if the manager there shows any disposition to distribute the report over his line? Now this is a very important matter to your section—particularly during the frost season. Owing to the R. F. D. service which has been recently established, the following offices no longer receive the daily forecast, because the carrier leaves Gainesville before the forecast can reach him. The carrier leaves at 8 a. m. and we cannot get the forecast to Gainesville, as a rule, before 10 a. m., sometimes 11 a. m., owing to condition of telegraph lines.

"The following offices have been discontinued, and no longer receive the forecast mailed from Gainesville center: Central, Clyatt, Kanapaha, Kirkwood, Palmer, Tacoma, Wacahoota. The list will soon increase so soon as the R. F. D. service is established.

"Now, I think the telephone operates service to all those points, and if they would do so, or found it to their interest to do so, the offices mentioned could have the weather forecast sent to them daily—received at their homes. If they have no 'phone they could arrange to have one put in.

"R. F. D. service results in discontinuing the forecast, unless the service is maintained through telephonic connection."

Col. Clark, still desirous of accomplishing the effect to give the growers the advantage of a daily report, took the matter up with the Southern Bell Telephone Company in Savannah, urging to the management of the Southern Bell the mutual importance of both that system and the grower to have the forecast submitted daily. His efforts have apparently borne fruit, for, under date of October 24 David Laird, superintendent of the Southern Bell, writes as follows:

"Referring to your letter of recent date, beg to advise that I am issuing instructions to our managers at Gainesville and Micanopy, that when weather report is furnished them each day they will transmit the same by telephone to the various suburban subscribers.

"You will understand that we cannot undertake to furnish these reports to town subscribers on individual lines, but in case of the rural party line using a general alarm ring to attract all of the subscribers to the line at one time, we can furnish this information without taking up a great deal of our operator's time."

As will be noted from the above letter, it will be seen that the growers of this section will now receive forecasts at their homes by telephone, which will prove a big advantage to them, in some instances probably the saving of thousands of dollars to truckers of Alachua county reached by 'phone.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

SEA ISLAND COTTON.

Savannah Market Ruled Firm During the Past Week.

Savannah, Ga., Oct. 26.—The market for Sea Island was very firm early in the week, but became quieter toward the middle of the week as the early demand became satisfied. Some effect was also felt from the financial troubles in the North. There was a little inquiry early for choice and extra choice, but later they were neglected. Quotations are reduced for all grades below fancy on account of the scarcity of that grade in the receipts, which show still no improvement in quality.

There were no new developments on the crop question; some places report a good yield and others very poor, which is especially the case with Florida. The weather for the week was favorable in the main.

How to Cure a Cold.

The question of how to cure a cold without unnecessary loss of time is one in which we are all more or less interested, for the quicker a cold is gotten rid of the less the danger of pneumonia and other serious diseases. Mr. B. W. L. Hall of Waverly, Va., has used Chamberlain's Cough Remedy for years and says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by all druggists.

AT THE UNIVERSITY.

Interesting Batch of Notes From College for Young Men.

Matters have been active in the organization of societies, etc., at the University for the past few days, and the faculty and students alike are interesting themselves a great deal in all matters of this kind.

It has been decided to publish a college paper during the scholastic year, which will be known as The Florida Pennant, and the following staff has been elected, which is an assurance of success of the journal:

H. A. Folkel, editor-in-chief; James Kirk, associate editor; R. W. Corbett, athletic editor; W. B. Martin, exchange editor; Julius Gammon, literary editor; T. C. Thompson, society editor; A. W. Albertson, local editor; C. M. Fisher, business manager; McTyre Lewis, assistant business manager. As a board of managers, one representative will be taken from each class.

The young men are very enthusiastic over the proposed journal, the first copy of which will appear shortly.

The literary society has elected the following officers for the year: H. A. Folkel, president; W. B. Martin, vice-president; R. D. Rader, secretary; D. S. Ervan, treasurer; P. J. Carter, critic; L. G. Kirk, sergeant-at-arms.

Officers of the University Y. M. C. A. are as follows: R. D. Rader, president; Mr. McMillan, vice-president; W. B. Martin, secretary and treasurer.

There are now three fraternities in the University, being the Alpha Tau Omega, Kappa Alpha and Pi Kappa Alpha.

A Certain Cure for Croup—Used for Ten Years Without a Failure.

Mr. W. C. Bott, a Star City, Ind., hardware merchant, is enthusiastic in his praise of Chamberlain's Cough Remedy. His children have all been subject to croup and he has used this remedy for the past ten years, and though they much feared the croup, his wife and he always felt safe upon retiring when a bottle of Chamberlain's Cough Remedy was in the house. His oldest child was subject to severe attacks of croup, but this remedy never failed to effect a speedy cure. He has recommended it to friends and neighbors and all who have used it say that it is unequaled for croup and whooping cough. For sale by all druggists.

Evinston Will Observe Thanksgiving.

Editor The Sun: Please announce through the columns of your valuable paper that the town of Evinston has arranged for a proper observance of Thanksgiving day.

A Thanksgiving sermon will be preached and an appropriate service conducted at 11 a. m. Dinner will be spread at the noon hour, and the afternoon will be spent in a pleasant and becoming manner. A cordial invitation is extended to the people of McIntosh, Micanopy, and all the surrounding country. And a very special invitation is extended to you, Mr. Editor, and to any of your friends, who wish to come.

Come, friends, and join with us in giving thanks, and be sure to bring a well-filled basket with you.

Fraternally,
T. L. Z. BARR, P. C.

Playing With Gun, Boy Killed.

Bristol, Tenn., Oct. 26.—Henry Odell, 9 years old, son of William Odell, was shot and killed here by a neighbor boy of about the same age. The shooting was accidental. The boys were playing with a loaded shotgun. The Odell boy's thigh was mangled, necessitating amputation. He died a few minutes after the operation.

FLORIDA GROWERS MAY GET RELIEF

Gained First Victory Through Efforts of Association.

INTERSTATE COMMISSION HAS

Taken Into Consideration the Prayer of the Growers and Shippers of Florida, and Case Set for Argument on Wednesday, November 13.

It appears that the efforts of the Florida Fruit and Vegetable Shippers' Protective Association, of which F. D. Warner of this city is president, is about to accomplish the purpose for which in a large measure it was organized at the original suggestion of Mr. Warner and other members of the Gainesville Melon Growers' Association last year.

It has been said that the fruit and vegetable growers and shippers of Florida have for years been discriminated against by the transportation companies in the matter of rates, etc., and Mr. Warner, with other energetic growers and shippers, determined if possible to put an end to this discrimination, and with this object in view they succeeded in interesting a large number of growers of the State, finally perfecting a State organization.

Immediately after the organization, the associations, through a committee, submitted its grievances to the Interstate Commerce Commission, and President Warner has received a letter from the commission to the effect that Wednesday, November 13, has been set aside for a hearing before the commission in the case. This is quite encouraging, for President Warner feels sure the commission will at once realize the discrimination as charged, and will furnish a remedy for the situation by which every grower and shipper in the State will be benefited.

Mr. Warner, with members of the association from other sections of Florida, will be present at this hearing.

UNVEILING OF MONUMENT.

Woodmen of World Will Hold Interesting Ceremony Today.

Alachua Camp, Woodmen of the World, according to the custom in the case of all deceased sovereigns, will unveil the monument to Sovereign J. J. Butler at Evergreen cemetery this afternoon.

This is one of the most beautiful and impressive ceremonies ever participated in by any secret order, and one which will be long remembered by those who attend.

The ceremonies will be conducted by officers and members of the camp, and Sovereign Robt. E. Davis will deliver the memorial address.

The public is cordially invited to attend these services. The procession will leave the square at 3 o'clock.

All Woodmen are requested to meet at the lodge room over The Dutton Bank promptly at 2:30 o'clock. Officers of this camp will meet at the hall at 1:30.

THE BAPTIST BARACA.

Organization Completed at Meeting Held Last Friday Night.

On Friday evening the members of the Bible class, with their friends, held a meeting at the church for the purpose of organizing a Baraca class.

The meeting was informally called to order by our State secretary, Mr. Thos. J. Dayton, and after a few words of explanation of this work the following officers were elected:

H. R. Wilburn, president; R. D. Aglee, secretary and treasurer; R. Y. Winters, press reporter. The class is to be congratulated upon securing such good officers.

Mr. Wilburn has been actively engaged in Baraca work before, and Mr. Algee has been for some time the competent secretary of our local B. Y. P. U. With such leaders, and the co-operation of each member of our class, we intend having one of the best classes, not only in Gainesville, but in the State of Florida.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs.

It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

EXPRESSIONS OF FLORIDA EDITORS.

Every indication points to a successful vegetable crop this season on the mighty Manatee. The growers are up and doing, and with their improved methods and plenty of water there is no reason why this should not prove a record-breaker season.—Manatee Record.

Wild lands should pay the same amount of taxes per acre as improved lands in agricultural sections. In other words—speculation, not industry; the land monopolist, not the farmer; the capitalist, not the laborer; kid gloved, not horny hands, should be made to pay the bulk of the taxes.—Brooksville Argus.

The Gainesville Sun tells of four young men going out to a near-by hammock on a squirrel hunt and says that the friends of those young men congratulated them on having slaughtered fifty squirrels, the wanton killing making them the champion squirrel hunters of Florida. Instead of congratulations they ought to get a thirty-day sentence at hard labor. When people take life for purposes other than that of daily sustenance, they, in most cases, are guilty of a crime against humanity in depriving the world of creatures created for man's pleasure and benefit. This thing of going out to the woods and committing wholesale slaughter of beast or bird is something that should not be tolerated in a civilized community.—St. Augustine Record.

"The iron horse has already made its appearance on Long Key, and will soon be skimming over the great bridge at that place. One by one the keys have been conquered by the genius of Mr. Flagler's engineers, and the work will go on until Key West is reached. When the train goes over the Long Key bridge, the road will have earned its name of a 'Railroad into the Ocean.' This bridge is across a deep channel and is only protected from the Gulf by a narrow strip of submerged reef. It makes a two-mile run at this point with no land on the south nearer than Cuba, and nothing on the north but the main land of Florida. This is not the largest bridge on the road, but it presented more obstacles, and is a greater engineering feat than all the others combined."—Key West Citizen.

Admiral Evans declines to be drawn into the controversy over the comparative merits of navy and army gunnery. He says there is no practical way of comparing the two classes of workmanship unless some army officer shall hitch a mule team to one of the 12-inch sea-coast guns and shoot it off while galloping across the country at 10 knots an hour. This may sound like a joke, but it is about the nearest approach the army could make to naval gunnery conditions.

THERE ARE A LOT OF "NEW STORES" IN TOWN.

The pressure of progress, as we know it nowadays, operates to "make all things new." A store is "made anew" every few months. Sometimes, as at this season of trade-activities, a store is practically "renewed" over night.

This means that, no matter how well you may "know" the stores of this city, there are a lot of practically "new" stores ready for your inspection tomorrow! They are new in all essentials except location, walls and fixtures, management and ownership. These remain. You do know the stores thus far. But beyond this you are a stranger today in your favorite store.

Stocks are new. Lines of goods are enlarged. New ideas abound in every nook and corner. New things, new models, new fabrics, new workmanship, new prices—some higher, but many lower than you are accustomed to paying—all these things make today's stores new to you, and worthy of a visit.

And the store-ads, reflect the new store-spirit. They convey some of the new store-enthusiasm which has actuated the merchants—that faith in the good taste and alertness of this buying public. Just as the stores are worth a visit, so are the store-ads, worth a reading.

It is to be hoped that the Board of Public Works will be able to render correct bills for sidewalks within the next generation. As many as three separate bills have been rendered property owners for sidewalks and curbing constructed on East Liberty street and Alachua avenue, neither one of them for the same amount, though the sidewalks had not grown in length or width.

It is cleaning-up time in Florida towns, and our State exchanges all note that the work is being done thoroughly. The same can be said of Gainesville, but the work should not be confined to the public square and a few adjacent blocks. Property owners in other sections also pay taxes.

A REVOLT AGAINST ROOSEVELT'S POLICIES

President Encounters A Serious Situation In Republican Party.

CONGRESSMEN WILL NOT SUBMIT

To Further Domination From Him As to Legislation to be Enacted. The Corporations Now Between Two Nether Stones.

Washington, D. C., Oct. 26.—President Roosevelt finds upon his return here that a revolt against his policies needs his attention. A desperate internecine fight is impending in the ranks of the Republican leaders for control of the party organization. The Presidency and Congress is at stake. Legislation in the coming Congress depends upon the preliminary skirmish. The removal of the headquarters of the Republican Congressional Committee from New York to Washington is the first open step taken to notify President Roosevelt that his anticipated effort to dominate Congress at the coming session, as he did the last session, will not be tolerated by the leaders. An evidently inspired article in The Washington Post outlines the plans of the reactionary Republican leaders, and states their ultimatum to the President and their threats to those Republican Congressmen who are inclined to take tips from the White House instead of from the Speaker. Briefly stated, the main points set forth are:

The campaign for the election of Republican members of Congress is to be entirely distinct from the campaign for President, especially in collecting and disbursing campaign funds.

The status of those members of Congress who side with President Roosevelt for some radical legislation "will be taken account of by the Congressional Committee in its future dealing with these same members when they become candidates."

Corporations and trusts "that prosper best when Republicans are in power and when Republican policies prevail" are notified they must contribute to the Congressional Committee, and that any contribution they may make to the Republican National Committee will not count, when favorable legislation is asked for.

This announced policy of the Republican leaders to cut loose from the President is a political game for high stakes, and the Congressional players evidently don't intend to be short of cash if the fat can be fried out of the corporations. As President Roosevelt said in dealing with Harriman for campaign contributions, "we are practical men;" and these Congressional Republicans are equally practical in their ideas of raising a corruption fund.

It will be interesting to Democrats to notice how the Republican members of Congress will line up on these propositions—how many will adhere to the President's side and who will rally around Speaker Cannon and the other reactionary leaders. The Republican members of the Senate, of course, will be divided on similar lines, but, perhaps fortunately for them, they will not be compelled to show their hands until the Republicans of the House have exposed theirs.

There is one feature of this fight that may draw the Democrats into it, although on the general principles of letting the enemy fight it out and then whip the survivors, it were better to keep aloof from entangling alliances with either faction, but try and force the enactment of legislation necessary for the best interests of the whole country. President Roosevelt may seek allies in the Democratic camp who, added to his own friends in Congress, would compose a majority. But after the experience of the Democrats of the Senate when the railroad rate bill was being manipulated Democrats will be very wary of any overtures from President Roosevelt, for fear of again being left in the lurch and abused for their pains.

This puts the corporations between the upper and the nether millstone. It should result in any decent trust or corporation magnate deciding to refuse to be bled by either faction. If there are any honest trusts it may induce them to flee from such Republican plundering and to rely upon their constitutional rights and honest government for protection against the virtual confiscation of their assets by the two Republican factions which control different branches of the Government.

The best play President Roosevelt can make against this revolt would be to have his friends announce a rival candidate for Speaker against the arch conspirator Cannon, and let it be known that rather than see Cannon elected he would favor the election of John Sharp Williams, the Democratic leader, as Speaker. The Republican reactionary leaders would be helpless without the spoils of the House, and the President should be able to control the votes of enough Republican members, who, added to the Democrats, would make a majority. It would only require just 30 Republicans, tariff reformers and others, to do the trick.

The above is so interesting and important that even Democratic news must be subservient to it this week. Next week, however, there may be equally important information about Democratic matters; for it is reported by the Bryan literary bureau in this city that Mr. Bryan will in a few days make announcement of his future plans. Whether he will declare himself a candidate for the nomination for President, or decide that he does not consider himself the most available candidate, is the supreme question.

Lest We Forget

Baby is restless, can't sleep at night, won't eat, cries spasmodically. A bottle of White's Cream Vermifuge never fails to cure. Every mother should give her baby White's Cream Vermifuge. So many times when the baby is pale and fretful, the mother does not know what to do. A bottle of this medicine would bring color to his cheeks and laughter to his eyes. Give it a trial. Sold by W. M. Johnson.

To Manufacture Mail Boxes.

Columbus, Ga., Oct. 26.—Judge Martin, in the superior court, has granted a charter to the Rural Automatic Mail company, the company organized to manufacture the rural mail box recently invented by Georgians and which has received the approval of the United States government, and also the rural mail carriers of the country at their recent session in Atlanta.

Say Emperor is Convalescent.

Vienna, Oct. 26.—The physicians in attendance on Emperor Francis Joseph Thursday morning announced for the first time since his illness that the convalescent stage has begun. Preparations are going on to permit the emperor to take a walk in the gardens, in the event of his improvement continuing and the weather being favorable.

THE NEWS FROM HIGH SPRINGS

Death of W. H. Dixson—Railroad Shops Closed—Notes.

High Springs, Oct. 26.—Mr. and Mrs. J. C. Cowles have returned home, after a pleasant visit to Eatonton, Atlanta and other points in Georgia.

Mrs. A. L. Moore was called to Jacksonville yesterday by the sudden death of her brother, Mr. W. H. Dixson, which occurred the night before. He was at Eagle Hall attending a session of Duval Lodge No. 257, International Association of Machinists, of which he was secretary, when death came from heart failure. Mr. Dixson was an old High Springs boy, having been reared here, and there is much sorrow felt here over his untimely death.

The locomotive department of the Atlantic Coast Line shops at this place closed yesterday, throwing about one hundred men out of employment. They will open again on November 1. A shortage in the appropriation for expenses is the cause.

Quinsy, Sprains and Swellings Cured.

"In November, 1901, I caught cold and had the quinsy. My throat was swollen so I could hardly breathe. I applied Chamberlain's Pain Balm and it gave me relief in a short time. In two days I was all right," says Mrs. L. Cousins, Otterburn, Mich. Chamberlain's Pain Balm is a liniment and is especially valued for sprains and swellings. For sale by all druggists.

Two Hurt in Wreck.

Atlanta, Oct2 66.—The splitting of a switch on the Southern railway Thursday night wrecked an accommodation train operated for the benefit of its employees on its runs from Simpson street to the Southern yards outside the city, and injured Engineer W. H. Housley and Fireman W. A. Hinton. Both men were taken to a sanitarium on Cone street and it is not thought there is any danger of death. In the smashup Fireman Hinton was thrown under the tender, and nearly drowned by the bursting of the water tank. Engineer Housley was hurt by the falling of a piece of the engine. The rest of the occupants of the train escaped unharmed.

A Card.

This to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe cough and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. J. W. McCollum & Co.

Chanler Guest of Fair.

Atlanta, Oct. 26.—Lieutenant Governor Stuyvesant Chanler, of New York, who arrived in Atlanta Thursday night was the guest of the Georgia state fair Friday where he spoke at noon. Following his address Lieutenant Governor Chanler was entertained by the directors of the Atlanta Fair Association at an informal luncheon at the Piedmont Driving club and at night was the guest of a dollar dinner at the Piedmont hotel.

Henry E. Jones of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old, and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney medicine. J. W. McCollum & Co.

WATCHED THEIR CHANCE.

While Woman Went to Withdraw Her Deposit Thieves Loot House.

New York, Oct. 26.—Mrs. Theo. E. Schulz, wife of an automobile dealer living at the Bronx had a comfortable sum deposited at the Harlem branch of the Knickerbocker Trust company.

Reading the accounts of the run on the institution and thinking that the doors would be opened, she left her home to withdraw her account and she lingered around the closed bank until several hours had gone by. When she returned she found that burglars had ransacked the house. The thieves evidently knowing she was away, took their time and removed everything of value they could carry. The property was valued at $2,000.

SOUTHERN PACIFIC SUED.

Alleged Road Was Cruel to Animals in Transit—33 Suits Filed.

San Francisco, Oct. 26.—Thirty-three suits against the Southern Pacific company have been filed in the United States circuit court by United States District Attorney General Bonaparte. The suits were brought to recover $500 in each case, or a total of $16,500 for violating an act of congress to prevent cruelty to animals in transit on the cars.

The complaints charge that on thirty-three different occasions the Southern Pacific confined cattle in cars 36 hours without rest or food or water. The law limits such confinement to 28 hours at the most.

Mrs. Osborn Finds Sermon in Them

COPYRIGHT, 1907, THE DELINEATOR

You are familiar, of course, with that old contention of the philosophers that beauty is its own excuse for being. It raises a question that has been handed down unanswered through all the years that are past, and is likely to remain unanswered through all the years to come—a question that holds the basic principles of ethics and esthetics.

Philosophy and dressmaking! Truly, Horatio, bias bands and underarm gores were never dreamt of in your philosophy! Yet you would not think it a far cry if you had been called upon and challenged, as I have been, to meet the interpretation of vanity, frivolity and extravagance that is placed upon the woman who seeks to express something of her own individuality; something of her joy in life; of the love of the beautiful in her dress. Does is justify her in the extravagance of this luxury-loving age? Is beauty its own excuse for being?

I do not pretend to be wiser than the sages of old, but this I know: I look around me at the beauty of the world in the changing seasons—the glad green promise of the spring; the drowsy, languorous, poppy-laden lure of the summer; the spendthrift prodigality of the fall; and that still, awed hush of our white winter that seems to lay a finger on the lips of earth itself; and in this arraying and adorning of the earth-mother, I find a prototype that bears on the subject we are discussing—a prototype that lifts the arrayment of women from something silly, weak and vain, to a sweeter, nobler, saner level. There is something very beautiful to me in womankind—"God's garden flowers" a quaint old poet has called them—and so I beg you, of your mercy, begrudge them not the outer beauty so freely granted to birds and flowers—a beauty that makes this mad old, sad old world a better place to live in.

A weighty sermon this! Ethics, esthetics and nature-study as a preliminary—for what? The discussion of furs and the new skirt trimmings. An anticlimax? There spoke the limited masculine intellect and I bid you begone—go read your books written for strong men by strong men—I am a poor weak woman writing for others like myself.

Mrs. Osborn, in The November Delineator, expatiates on the beauty and richness of the season's furs. Never were such beautiful effects produced as now, the newest process for curing the skins and dyeing the pelts rendering them of unusual softness, luster and depth of tone. Their pliability presents possibilities in the way of trimming, too, and gives them an unwonted adaptability to the present modes. Mrs. Osborn says: "I have been assailing for years the senseless and stupid vogue of the fur-lined cloth coat showing the fur merely in the collar and cuffs—a burdensome affair from its weight, and suitable only to severe climates because of its warmth." Further on in the same letter Mrs. Osborn says: "I look on a woman as lacking in intelligence who is willing to hide the pretty, graceful lines of her figure beneath a shapeless mass of cloth and fur, and to utterly overlook and disregard the unlimited possibilities of the fur itself."

It will be a "fur" winter there is no doubt, but, like everything else, furs have advanced in price, and those who bought have their wants in this direction provided for are to be congratulated. The New York horse show establishes the winter fashions for a large section of the country, and this season the most exquisite fur coats of all shapes and lengths were in evidence. Fur hats heavily laden with feathers and jewels, lace gowns with trimmings of fur, muffs—not quite so large as last year's and a little more rounding in shape—and fichu pelerines, collars, capes and collarettes gave a touch of richness to the scene that nothing else could have contributed. The combinations of furs are unusual and immensely effective. Seal and ermine, mink and white lynx and caracal, breitschwanz and seal, silvergray fox and seal, all are associated in the most effective manner and the heads and tails furnish trimming for the muffs and neck pieces. Sealskin holds first place in the favor accorded to furs, and pony skin has attained a high degree of popularity. This pelt is so supple and pliant that it is being used extensively for close-fitting jackets; and it still retains its favor for motoring garments. The coats for dressy wear with handsome gowns are sometimes made on kimono lines, and are elaborately embroidered and trimmed with braid. To quote again from Mrs. Osborn:

"There is nothing that increases the indolent, regal charm of a beautiful woman, or lends distinction to a plain one to such an extent as furs. Load a woman with jewels and she will appear, at best, like a jeweler's show window beneath an arclight. Wrap her in furs, and the most insignificant woman will be invested with something of the dignity of a queen." Women of wealth add to this regal effect by matching their personal furs with their laprobes. This will be considered by the majority of people more of a display of wealth than of refined taste.

It almost invariably follows that a great fur season is also a great velvet season, and this year is no exception to that rule. Stamped, brocaded and embroidered velvets are among the richest offerings, and their increased suppleness enables the makers to follow any design—providing the lines are long and graceful—and to use tucks, shirring, smocking or gathers, as the chosen model may require. Dresses, coats, hats will be made of this beautiful fabric and everything that is rich and beautiful will appear as trimming. Jeweled passementeries and embroideries, silver and gold stripes and figures, tufts of chenille and inserts of lace and other rich fabrics are but a few of the novel effects that are presented.

HONOR TO VISITING LADIES.

The Week Just Closed Has Been One of Rare Social Gaiety.

Many honors in social circles have been extended to Mrs. Arthur Clark of Ocala and Miss Mamie Wilcox, the charming guests of Mrs. J. W. McCollum, during the week just closed, the week being almost one continuous whirl of pleasure.

Following the reception tendered by the hostess on Tuesday, Mrs. William Dale entertained in their honor at cards at her elegant home on Wednesday evening. Miss Ida Burkhim repeated the honor on Thursday evening, entertaining at cards. On Friday evening the Misses Hampton and Richards entertained at a chafing dish party, and on Saturday afternoon Mesdames J. M. and S. T. Dell as a token of regard for the visiting ladies, entertained at the home of Captain and Mrs. J. Maxey Dell, Roper avenue.

As a pleasing finale of the week's events, Mrs. W. S. Pringle tendered in honor of the ladies a musicale on Saturday evening, which was like the former function, well attended and highly enjoyed.

These charming visitors have made many friends here, and are the recipients of many attentions.

CATARRH BLOOD UNHEALTHY SYSTEM DERANGED

The entire inner portion of the body is covered with mucous membrane; this membranous tissue is abundantly supplied with blood vessels, veins, arteries, and capillaries. Each of these is constantly supplying to this tissue or lining, blood to nourish and strengthen it and keep the system healthy. When the blood becomes infected with catarrhal matter it is not able to furnish the required amount of healthful properties, but feeds the parts with impurities which disease the membranes and tissues so that they become irritated and inflamed, and Catarrh, with all its disagreeable and dangerous symptoms, is established in the system. There is a constant ringing in the ears, a thin, watery discharge from the nostrils, the breath has an offensive odor, slight fever often accompanies the disease, and gradually the entire health becomes affected and the system upset and deranged. In its earlier stages, when Catarrh is confined to the nose and throat, sprays, washes, inhalations, etc., are soothing and in a way beneficial, because they are cleanly and usually antiseptic, but such treatment has no curative effect, because it does not reach the blood. To cure Catarrh the blood must be purified, and this is just what S. S. S does. It goes down into the circulation and attacks the disease at its foundation; it removes the cause and makes the blood pure and healthy. Then the blood vessels are filled with fresh, reinvigorated blood, which is carried to all the mucous surfaces and linings, the inflammation and irritation are corrected, the symptoms all disappear, the health is improved and Catarrh is permanently cured. Book on Catarrh and any medical advice free to all who write.

R. P. Lumpkin of Orange Heights was a visitor to the county capital yesterday. Mr. Lumpkin is quite prominent in his section, being justice of the peace and postmaster of that progressive town.

J. F. Conway, Ivan Bohannon and Ellis Wilson formed a trio of visitors to Gainesville from Waller, Clay county, yesterday. They came on business connected with the United States land office.

Gordon M. Wienges, for many years a resident of this city, but now of MacBeath, S. C., is here on a visit to relatives and friends, all of whom are glad to welcome him again. Mr. Wienges was for a long time office deputy to Sheriff Fennell.

Friends of J. B. Brooks will regret to learn that he is indisposed at the National Odd Fellows' Sanitarium from the result of an operation for hernia, which was performed Friday night. He is resting as easily as could be expected under the circumstances, however, and the chances are he will be out in a few days.

In most cases consumption results from a neglected or improperly treated cold. Foley's Honey and Tar cures the most obstinate coughs and prevents serious results. It costs you no more than the unknown preparations and you should insist upon having the genuine in the yellow package. J. W. McCollum & Co.

The street gang has been engaged for the past two or three days very admirably in cleaning East Union street, south side of square, which now presents a very neat appearance. The street committee would do well to put the sprinkler in commission, however, as the thoroughfares have been quite dusty and disagreeable for the past few days.

ANNOUNCEMENT.

Mr. L. O. Wheeler, formerly of the Eagle Cafe, Miami, an experienced caterer and first-class cook, has accepted a position with this establishment, and from now on kindly keep your eye on us. Our midnight service will begin Monday, the 21st, and when we say midnight service, we don't mean open one night and closed the next. We expect to cater to the best class of trade and to make the service first-class in every respect. We shall make a specialty of oysters, fine Western steaks, devilled crabs, fish, game, etc. The very best Coffee, brewed in a large porcelain-lined drip urn. Unquestionably the best furnished and equipped restaurant in the city, as well as the oldest established, and no expense will be spared to give you a first-class service. "What we promise we try to do."
